

24V/5A AC Power Supply
[Model No: IPS24-5A_AC]

Features:

- **Maximum output power of 120VA.**
- **High reliability, Low cost.**
- **AC input voltage range 230VAC,+/- 30V**
- **Built-in input over voltage protection.**
- **Compact, Light weight.**
- **100% Full load burn-in test.**

Specifications:

. Input Characteristics

Input Voltage	200V – 260 VAC
Input Frequency	50 Hz.
Input Connector	3 pin plug
Input Protections	a) 1 Amp, 20mm fast blow, Glass fuse. b) MOV for input over voltage protection.

. Output Characteristics

Output Voltage	24V AC
Output Current	5A(MAX)
Output Power	120 VA
Output Connector	2 core cable o/p
Output Indications(LED)	a) Output – Red color LED.

. Environmental Characteristics

Operating Temperature	55 C at Full Load and 70 C at 60% load.
Cooling	By forced cooling (Fan)
Relative Humidity	95% NC.

. General Characteristics

Dimension (L X H X D) mm	(255L X 155H X 95D)mm
Mounting	Wall Mounting
Weight	5.5 Kg (Approximate)

Note:

- 1) All these parameters are specified at 230V AC input.
- 2) For continuous improvement, specifications are subject to change.
